

HUD BCHU

Bulk Coin Hopper Unit

Technical Overview

Coin Hopper and Bulk Coin Storage

Space optimisation, BCHU unit combines bulk coin bag storage on heavy duty roll out shelves with a secure storage of coin hopper trolleys used in the auto coin deposit machines.

Construction

- 4 x Heavy Duty shelves at safe coin handling heights
- 100kg load capacity per shelf via heavy duty shelf slides
- Shelf latching system to prevent shelf rolling back when loading
- Double lined Steel Body (3mm external plus 2mm internal)
- 5mm Steel Doors with Safe Door hinges
- Rebated doors into frame – anti-lift
- 3 Way Locking Boltwork for secure locking
- High wear powder coated paint finish

Locking

ROSS 600 Safe Door Keylocks to secure 3 way Boltwork
Optional Electronic Digital Locking

Fixing to floor

4 x 10mm Floor fixing holes in base for secure fixing

Occupational Health & Safety Compliant

Bulk Coin shelf heights designed for the safe lifting of coin bags. Raised shelves ensures that coin always stored at safe lifting heights reducing lift injuries from coin handling.

Storage of coin hoppers in the base of the coin cabinet makes efficient use of the space, while ensuring coin hoppers are safely secured out of the way where they could be trip hazards.

Dimensions :

1000mm Wide x 600mm Deep x 1325mm High

Weight : 300kg
