

HUD TD2-FX

Teller Forex Unit

Technical Overview

Integrated Time Delay Teller Solution

Designed for Foreign Exchange Outlets that receive, dispense and process significant volumes of cash.

Integrated cash drawer and time delay deposit safe helps staff manage cash drawer limits and protect bulk cash by allowing easy deposits into the time delay safe via deposit slot.

Locking

HUD Electronic Time delay lock to deposit safe with alarm integration options for duress and extending time delay when alarm activated.

Bilock restricted key locks to drawers and time delay with additional Ross600 Safe door lock on safe for dual access control

Occupational Health & Safety

Use of time delay safes to restrict available cash is a recognised target hardening deterrent to criminals and helps protect your staff and cash.

Ergonomic design for easy to operate time delay with a key turn to activate and simple pull of door to open when time delay cycle completed. Safe self-locks when door closed.

Cash Drawers

Ergonomic plastic moulded cash tray options for loose coin, bulk coin, bank notes and vouchers.
